ABOUT ME

Greetings! I'm Vinayak Shinde, a computer engineering graduate and tech enthusiast. With a knack for artificial intelligence, neural networks, and machine learning, I thrive on crafting elegant solutions. I'm also delving into IoT robotics, applying my skills to create innovative web and mobile applications. Join me as I navigate the digital frontier, fusing creativity with technology to shape the future.

EXPERIENCE

ROBOTICS TUTOR&INTERN

At Enovators-hub , learning and giving knowlege to kids and teenagers

21 jun 24 - active

MERN STACK INTERN

At Webstack academy , built a travel website there with web scraping

9 feb 24 - 9 april 24

SKILLS

- Artificial intelligence (python)
- full stack web developer (html,css,js,mysql & mern stack)
- Machine learning
- Robotics
- java
- DSA
- lot
- video editing (premere pro)
- 3d animation (blender)

EDUCATION

Persuing Bachelor of Technology in Computer Engineering Saraswati College of Engineering, Kharghar with **aggregate of 8.36 cgpa**

Persuing

PROJECTS

• [M.a.g \(my assistant guide\)](#)

- Developed "Mag," means my assitant guide a versatile voice assistant for tasks and information retrieval

• [दृष्टि \(Dr̥ṣṭi\)](#)

- a Blind navigation device , which detects distance from any direction by ultrasonic sensor , which is controlled by a raspberry pi macro processor , and a in build voice assistant to guide the person.

• [अन्तरिक्षं द्रष्टुम् \(Antarikṣaṃ draṣṭum\)](#)

-Created a VR experience for educational purposes, including the Hubble Telescope, Crew Dragon launch, and ISS interior.

• [श्रेष्ठ आरोग्यम् \(Śreṣṭha Ārogyam\)](#)

- a fully functional , fitness webapp , in html , js , css , where the user , can track his excersize by viewing the bar chart , which recommends best excersizes , a AI fitness tracker ,which tracks the users excersize , a mood tracker and a chat bot for any doubts

Hackathon partication:

- Nationals in nasa space app challenge hackathon 2023
- Geeks for Geeks hackathon 2023
